UConn Nation Invests in Students

I am pleased to present the 2019 Annual Report. Since joining the UConn Foundation in May—at the tail end of fiscal 2019—I have had the opportunity to meet with many alumni and friends. The enthusiasm with which this community supports UConn is remarkable.

Through the generosity of more than 22,000 donors, we raised $71.4 million to support students, faculty, and programs. Every gift contributes to UConn’s national reputation. We can’t thank you enough for your commitment and loyalty to Connecticut’s flagship public research university and academic medical center.

Gifts tell a story. They can capture donors’ passion in a powerful way. In the pages ahead, we put special focus on student support. Donors gave an impressive $21.7 million for need-and merit-based scholarships and fellowships for undergraduate, graduate, and professional students through Transform Lives—our student support initiative. Since 2015, the UConn Foundation has raised $122.8 million for scholarships and fellowships through Transform Lives.

In this report, we shine the spotlight on three remarkable students who have benefited from donors’ strong philanthropic support for scholarships and fellowships. They are at UConn achieving their dreams because of the tremendous generosity of UConn’s alumni and friends.

Thank you for investing in UConn. In closing, I would like to thank you for welcoming me and my family into UConn Nation. We are proud to join the UConn community.

Total University Endowment

The total university endowment increased from $447.7 million in fiscal 2018 to $462.8 million in fiscal 2019, rising more than 3 percent.

An endowment is the bedrock of an institution’s excellence. The total university endowment provides a permanent foundation of support for UConn’s academic, research, patient care, and public service missions. Monies in the endowment are invested for long-term growth, ensuring support in perpetuity. The total university endowment is a fundamental component of UConn’s distinction as a top-25 public research university.

Gifts to the endowment sustain merit- and need-based scholarships that put a UConn education within reach for students regardless of their financial situation.

Endowed gifts create steady streams of support that augment federal and extramural grants for basic and translational research. With that funding, UConn is making discoveries and advancements that will improve human health.

Donations toward endowed chairs and professorships support the pioneering work of UConn’s eminent faculty. This support for faculty underpins the strength of programs across the University: from human rights, entrepreneurship, history and cybersecurity to sustainable energy, teacher education, genomics, cancer biology, and more.

### Total University Endowment

Transform Lives

In 2015, the UConn Foundation launched the ambitious Transform Lives initiative to support existing scholarships and fellowships and create new endowments that will support the next generation of undergraduate, graduate, and professional students.

Alumni and friends have continued to build momentum for our major student support initiative. This year, $21.7 million was raised for scholarships and fellowships. Since 2015, $122.8 million has been raised through Transform Lives.

“Rene would be so happy to know, as I have been, that this scholarship has helped so many people over the years,” said Marilyn Poindexter ’74 (CLAS).

When Poindexter’s husband, J. Rene Frechette ’75 (CLAS), died of cancer at 39 in 1988, his friends looked for a way to support what mattered to him. The J. Rene Frechette Memorial Endowed Scholarship at the School of Law is prioritized for students with financial need who are interested in the federal courts or other demanding fields; veterans of the Armed Services; and persons of color.

“This scholarship, founded by his Hartford friends and colleagues, is a lasting tribute
to him and the recipients,” said Poindexter, an annual donor to UConn for the last 31 years.

Frechette earned a bachelor’s degree in sociology from UConn in 1975 and a law degree from the University of Iowa. He was an associate at Day, Berry & Howard before joining Cigna, where his work on employee benefits and health insurance litigation contributed to the development of federal law.

In 2018-19, the scholarship was awarded to Mallori Thompson, who joined the U.S. Army Reserves in 2014 as a paralegal to make her more competitive for law school applications. She graduated magna cum laude in 2017 from Spelman College while serving in the U.S. Army ROTC at Georgia State University.

“Receiving this scholarship means to me that someone recognizes the sacrifice that is inherent in military service,” said Thompson. “Serving while in law school is a commitment that would deter most people, but having this scholarship allows me to focus more on being a student. That is everything to me.”

Thompson, now a second lieutenant in the Medical Service Corps of the U.S. Army Reserves, is co-chair of the Diversity Committee of the Student Bar Association, vice president of the Black Law Students Association, and a member of the Connecticut Law Review.

“What’s special about the UConn School of Law is the people,” said Thompson. “In such a competitive environment, you don’t expect to find people who care about your success as much as their own. That’s the standard at UConn.”

After graduation, Thompson intends to join a large law firm that offers opportunities for pro bono work in social justice and civil rights. She hopes to create a career path toward a leadership position in an individual rights organization, such as the NAACP or ACLU, and eventually a judgeship.

“Every year, I look forward to discovering who has been awarded the scholarship and knowing that this, in a small way, helps someone in law school,” said Poindexter. “It has been a great legacy to Rene.”
Transform Lives

Casey Whalen

Casey Whalen, a senior majoring in finance and real estate, has two international trips under his belt thanks to scholarship support.

“I was ecstatic to learn I was selected to receive this scholarship. I felt like my hard work and dedication had been realized,” said Whalen.

Whalen received support through a fund created by Michael Koppel ’78 (BUS)—a member of the UConn Foundation Board of Directors—and his wife, Shari. The Koppels wanted to support distinctive opportunities for members of the Business Connections Learning Community (BCLC).

“Unique experiences, such as overseas travel that serves to develop an understanding of other cultures and business practices, can have a life-changing impact on a student,” Mr. Koppel said. “We are honored and grateful to be able to support the Business Connections Learning Community and hopefully make an impact in the development of our future leaders.”

The living and learning community brings together business students and offers experiential programming and networking opportunities with alumni and faculty across the School of Business.

“What makes UConn special for me is how the University provides avenues for smaller communities and individual growth while having tens of thousands of undergraduate students on campus,” said Whalen. “It’s made it possible for me to build lasting friendships and a strong network of peers and faculty.”

Whalen’s awards enabled him to participate in intensive business immersion trips. He traveled to Vienna, Austria and Budapest, Hungary in 2017 and visited cities across Ireland in 2018.

“The scholarship has helped me engage in the business world in ways I had never expected to,” said Whalen.
Transform Lives

Emma Krebs

Since the James L. and Shirley A. Draper Scholarship was established in 2001, it has supported more than 300 students. For student-athlete Emma Krebs, the scholarship was one of the deciding factors in helping her choose UConn.

“I was very grateful to receive the James L. and Shirley A. Draper Scholarship when I was admitted to UConn,” said Krebs, a sophomore on the women’s cross country and track teams. “I work hard. It was special to see how my hard work paid off in helping me earn a scholarship to support my education.”

On a pre-med track, Krebs is studying allied health at the College of Agriculture, Health, and Natural Resources with the goal to become a pediatrician. “I especially love biology and learning about the human body. There is so much to learn as well as so much to still discover,” she said.

Krebs added, “UConn is where I was meant to be. Both my parents and my older brother are UConn alumni as well as some of my cousins.”

Shirley ’41 (CLAS) and James L. Draper, Jr. ’41 (CLAS), who died in 2000 and 2010, respectfully, supported their alma mater throughout their adult lives. They met at a student orientation parade on the Storrs campus in the 1930s. Mrs. Draper became a high school teacher and guidance counselor. Mr. Draper served in the U.S. Army for more than 20 years before entering the real estate and insurance industry. Later he co-founded EZ Communications, which owned and operated two dozen radio stations across the country.

In addition to the scholarship, the couple also created an endowed chair in American history and a non-endowed fellowship fund at the College of Liberal Arts and Sciences.

Financial Statement Overview

Prepared by Gerald J. Ganz, Jr., MBA, CPA, CGMA, Senior Vice President of Finance & Administration and Chief Financial Officer

The UConn Foundation’s financial statements have a new look this year. In accordance with Accounting Standards Update (ASU) 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities issued by the Financial Accounting Standards Board (FASB) in 2016, the UConn Foundation has implemented the required changes which affect a number of areas, including net asset classes, investment return, and expenses. As you’ll see, the 2018 numbers have been re-stated to conform to the new presentation methodology for comparison purposes.

As the Audited Statement of Financial Position shows, total assets grew by more than $22 million during the year to $597.6 million as of June 30, 2019. Increases in both the long-term ($11.8 million) and short-term ($18 million) investment portfolios were partially offset by a decrease in funds held in trust by others ($12.7 million). Cash and cash equivalents were also up ($9.0 million) at the end of the fiscal year, while pledges receivable decreased by $3.9 million, providing the net increase to total assets of $22 million noted above.

Net assets are an area where we see a significant change in presentation this year with only two categories now: without donor restrictions and with donor restrictions. Net assets without donor restrictions increased by $2.2 million during the year, while those with donor restrictions increased by $13.4 million.

On the Audited Statement of Activities and Changes in Net Assets, total revenues were down $34.7 million from fiscal 2018. However, the decrease was simply a function of: a) the fact that contributions returned to the more normal level of $40 million, down $25 million from last year when the UConn Foundation assumed responsibility for the investment and management of the UConn Law School Foundation’s endowment and other charitable funds; and b) although positive, net total investment return was down $10.6 million from the prior year as the long-term portfolio returned 4.8 percent versus the 7.65 percent it returned during fiscal 2018.

Total expenses increased by $8.5 million during fiscal 2018, with program support provided to the University increasing by a healthy $6.9 million and expenses for UConn Foundation operations increasing by $1.6 million.

The UConn Foundation’s long-term portfolio has grown to $435.4 million as of June 30, 2019 and fiscal 2019 was the ninth time in 10 years that the portfolio experienced positive returns. UConn’s total endowment—the UConn Foundation’s endowment as well as endowed gifts to the University—now stands at $462.8 million.

Report of Independent Auditors

To the Board of Directors of The University of Connecticut Foundation, Incorporated

We have audited the accompanying financial statements of The University of Connecticut Foundation, Incorporated (the "Foundation"), which comprise the statement of financial position as of June 30, 2019 and 2018, and the related statement of activities for the year ended June 30, 2019, and statement of cash flows for the years ended June 30, 2019 and 2018.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility
Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Foundation’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The University of Connecticut Foundation, Incorporated as of June 30, 2019 and 2018, and the changes in its net assets for the year ended June 30, 2019 and its cash flows for the years ended June 30, 2019 and 2018 in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter
As discussed in Note 1 to the consolidated financial statements, the Foundation changed the manner in which it presents net assets and reports certain aspects of its financial statements as a not-for-profit entity in 2019. Our opinion is not modified with respect to this matter.
Other Matter
We previously audited the statement of financial position as of June 30, 2018, and the related statements of activities and of cash flows for the year then ended (the statement of activities is not presented herein), and in our report dated October 10, 2018, we expressed an unmodified opinion on those financial statements. In our opinion, the information set forth in the accompanying summarized financial information as of June 30, 2018 and for the year then ended is consistent, in all material respects, with the audited financial statements from which it has been derived.

1. Summary of Significant Accounting Policies

A. Organization

The University of Connecticut Foundation, Incorporated (the "Foundation") was established in 1964 as an independent, privately governed, not-for-profit corporation, chartered under the laws of the State of Connecticut.

The Foundation’s mission is to strengthen the University of Connecticut, one relationship at a time. The Foundation fulfills this mission primarily through fundraising, asset management functions, and alumni relations. The Foundation solicits and accepts donations of property, money and securities, and invests and administers such assets. The Foundation disburses funds in accordance with the terms under which they were given to aid, supplement, improve, and enlarge the educational, cultural, recreational, and research activities and facilities of the University. More detailed information regarding the Foundation and its charitable activities can be obtained from the Foundation’s website at www.foundation.uconn.edu.

B. Basis of Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting and include the Foundation’s assets, liabilities, net assets, revenues, and expenses for the year ending June 30, 2019.

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles in the United States of America.

Net assets, revenues and expenses are classified based on the terms of donor-imposed restrictions, if any. Accordingly, the net assets, revenues, and expenses of the Foundation are classified and reported as follows:

Net assets without donor restriction – Net assets that are not subject to restriction, other than donor-imposed, to benefit the Foundation and board designated restrictions to support the University. Such assets include unrestricted gifts, investment earnings generated on unrestricted and temporarily restricted unspent funds, and assets functioning as endowments. Expenditures are reported in this classification of net assets since the use of donor-restricted contributions in accordance with the donor’s restrictions results in the release of the restriction.

Net assets with donor restrictions – Nets assets that are subject to donor-imposed purpose and use restrictions to benefit a specific unit, department, or program of the University that have not yet been met. Such assets and activity primarily include restricted gifts, trusts, and annuities.
C. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Actual results could differ from those estimates. The Foundation’s significant estimates include the valuation of its investments, the collectability of receivables, and the present value of the liability for future payments related to trust and annuity agreements.

D. Contribution Revenue Recognition

Philanthropic commitments are recognized as revenues when unconditionally pledged, or when a condition on a gift or pledge is met. Outright contributions are recognized as revenue when received. Gifts of real estate, buildings and equipment, marketable securities, and other donated property are recorded at their estimated fair value on the date of the gift.

Gifts are reported as with donor restrictions if received with donor restrictions that designate the use of donated assets as to purpose or time.

Pledges receivable represent outstanding unconditional promises by donors to make contributions to the Foundation. Unconditional promises to give that are expected to be collected within one year of the statement of financial position date are recorded at face value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated realizable future contribution amounts. The discount rates used to determine present values are an interest rate that reflects fair value applicable to the year in which the promises to give were received; the amortization of the related discount is subsequently included in contribution revenues. Contribution revenue recorded from pledges (see Note 2) is reflected in without donor restrictions and with donor restrictions, depending on donor restrictions, if any.

The Foundation uses a combination of specific reserve and estimate of remaining uncollectible accounts to determine the total allowance for uncollectible pledges. As of June 30, 2019 the estimate of remaining uncollectible accounts was 1% on pledges, pledges to non-athletic restricted accounts, and pledges to the Werth Family UConn Basketball Champions Center. Endowed and restricted pledges made to athletic accounts, other than the Werth Family UConn Basketball Champions Center, had a reserve rate of 5%. Non-athletic endowed pledges had a reserve rate of 2%.

Conditional promises to give are not recorded as revenue until they become unconditional, which is when the conditions on which they depend are substantially met.
E. **Cash and Cash Equivalents**

The Foundation generally considers short-term, highly liquid financial instruments to be cash equivalents. Cash equivalents consist of time deposits and short-term investments with maturities of 90 days or less at the date of purchase. Cash equivalents are stated at cost, which approximates fair value. Cash and cash equivalents that are discretionary components of long-term portfolios managed by professional investment management firms hired by the Foundation are classified as investments (see Note 3).

F. **Investments**

Investments are reported at fair value (see Note 3). The valuation of marketable securities is based upon quoted market prices and exchange rates, if applicable. Fair values for private equity, real estate, and other investments held through limited partnerships or commingled funds are estimated by the respective external investment managers if market values are not ascertainable. The Foundation uses the Net Asset Value (NAV) to determine the fair value of all the underlying investments which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company, or have the attributes of an investment company. As of June 30, 2019, investments in securities whose fair values are not readily determinable (NAV and level 3) accounted for 51% of all investments. Because they are not readily determinable, the fair values may differ from the values that would have been used had a ready market for these investments existed. Unrealized gains and losses that result from market fluctuations are recognized in the period in which the fluctuations occur. External investment management fees of $2,979,863 are netted against total investment return.

Net investment return (defined as dividends, interest, and net realized and unrealized gains and losses on investments, net of investment management fees), is reported as follows:

- As increases or decreases in net assets with donor restrictions if the terms of the underlying endowment funds designate the purpose for specific schools, departments, programs, or otherwise stipulated by the donor;

- As increases or decreases in net assets without donor restrictions if the terms of the underlying individual endowment funds and gifts are Board designated;

- As increases or decreases in net assets without donor restriction if the terms of the underlying individual funds and gifts are not endowed; or

- As increases or decreases in net assets with donor restrictions if there is a change in the present value of an annuity or trust due to the passage of time or changes in actuarial life expectancies.
The University of Connecticut Foundation, Incorporated  
Notes to the Financial Statements  
June 30, 2019 and 2018  

Investment in University of Connecticut Research and Development Corporation

The Foundation was the sole shareholder of the R&D Corporation, a for-profit corporation duly established in the State of Connecticut in 1984. On December 31, 2015, the Foundation divested its interest in the R&D Corporation, which was transferred to The University of Connecticut, a related party, without compensation.

The agreement with the University allows the Foundation to retain a continuing interest in the underlying companies owned by the R&D Corporation on the divestiture date. The Foundation will derive income equal to 10% of sales and 30% of royalties. The Foundation may use 50% of any royalty revenue interest and 100% of sales to support the Foundation’s mission. The remaining will be designated to support technology commercialization at the University of Connecticut. For the year ended June 30, 2019, the Foundation did not receive any royalty revenue.

G. Endowment Spending Allocation and Advancement Fee

The endowment spending policy adopted by the Foundation's Board of Directors, in conjunction with the strategic asset allocation policy for the long-term pooled investment portfolio, is designed to provide reliable growth in annual spending allocation levels and to preserve or increase the real value of the endowment principal, over time. To meet these objectives, the Foundation utilizes a total return investment approach, with total return consisting of interest and dividends, and realized and unrealized gains and losses, net of investment management fees.

The spending allocation distributed in support of designated purposes was $15,398,102 and $15,587,590 for the year ended June 30, 2019 and 2018, respectively.

The Foundation’s endowment spending allocation policy was enacted in accordance with the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA). UPMIFA considers prudence in maintaining an endowment fund in perpetuity. Spending can occur from an endowment fund whose fair value is below its historic value, as long as the governing body has determined that its policies will continue the perpetual nature of the endowment over time.

The amount of funds allocated for expenditure for the purposes for which an endowed fund was established (“spending allocation”) will equal 4.25% annually (1.0625% per quarter) of the rolling prior 12-quarter average market value on a unitized basis. The corresponding calculated spending allocations are distributed in equal quarterly installments on the first day of each quarter from the accumulated net total investment return for individual endowment funds where available, otherwise from principal.

Endowed funds established after July 1, 2017, will not participate in the pool until the principal amount is equal to or greater than the minimum needed to establish an endowment. The new fund will participate in the pool on the first day of the quarter after meeting the minimum amount. The spending allocation and endowment advancement fee, discussed below, will not be distributed until the endowed fund has participated in the long-term pool investment portfolio for two quarters.
An advancement fee is assessed to fund expenses incurred in meeting the Foundation’s fiduciary and fundraising responsibilities to donors and the University. This on-going advancement fee is also assessed based on a rolling 12 quarter unitized market value. Effective on July 1, 2015, this rate was 2.0%. The calculated fee is charged in equal quarterly installments on the first day of each quarter from the accumulated net total investment return for individual endowment funds where available, otherwise from principal.

Neither the spending allocation nor the endowment advancement fee will be distributed from endowed funds that are ‘underwater’ by greater than 25% at the end of any quarter during the fiscal year.

In order to ensure the Foundation preserves the purchasing power of the endowment pool, the endowment spending allocation and advancement fee taken together cannot exceed 6.75% or fall below 3.0% of the fair value of endowment funds. Should this occur, the calculated amounts will be decreased or increased, respectively, on a pro rata basis.

**H. Net Asset Treatment Associated with Endowment Returns**

To the extent that realized and unrealized losses, spending allocations, and advancement fees are in excess of accumulated gains for certain endowment funds, they are reported as decreases in net assets with donor restrictions, or if the endowment is a board designated endowment they are reported as decreases in net assets without donor restrictions, in accordance with accounting standards on not-for-profit investments. The Foundation is required to administer all endowment funds in accordance with the provisions of Connecticut’s UPMIFA statute. As of June 30, 2019, approximately 458 funds with a fair market value of $165,378,448 had an historic gift value of $176,706,594. The decrease of $11,328,146 is reported as a decrease in net assets with donor restrictions.

**I. Funds Held in Trust by Others**

The Foundation is irrevocably named as a beneficiary of funds held by third-party trustees, the purpose of which may be restricted by the donor. Generally, the Foundation will receive a specified portion of the assets remaining when third-party trusts are terminated. The present value of the amounts to be received upon termination is recorded by the Foundation as an asset on the statement of financial position and contribution revenue on the statement of activities using discount rates of 1.4% to 3.5% for 2019 and 2.1% to 3.7% for 2018. Trusts held in perpetuity are reported at their fair value. Funds held in trust by others totaled $11,906,914 and $24,572,528 at June 30, 2019 and 2018, respectively, and are considered Level 3 financial instruments (see Note 3 for discussion of classification of fair value measurements). At the time the Foundation is notified of the funding of a third-party trust, the fair value of the Foundation’s interest in the trust is recorded as contribution revenue. Any distributions from perpetual trusts are recorded as investment income.

J. Trusts and Annuities

The Foundation is named as the trustee and remainder beneficiary of several charitable remainder trusts. In addition, the Foundation has entered into contracts with donors for charitable gift annuities for which the Foundation has accepted contributions. These trust and annuity asset amounts are carried at their net present value and generally require that the income earned on the funds be accumulated or distributed in accordance with the respective trust or gift agreements. The trust and annuity assets are included in either the net asset with donor restrictions or without donor restrictions classifications based on the existence or absence of donor restrictions for the remainder asset. The difference between the amounts contributed to establish a charitable trust or charitable gift annuity and the present value of the liability for future payments to donors, determined using actuarial life expectancies and discount rates ranging from 1.2% to 8.4% for June 30, 2019 and 1.2% to 8.8% for June 30, 2018, is recognized as contribution revenue at the date of the gift. Changes in the present value of the liability due to the passage of time and changes in actuarial life expectancies are reported as part of net total investment return in the statement of activities.

K. Property and Equipment for Operations

Property and equipment are stated at cost. Depreciation of property and equipment is charged to expense on a straight-line basis over their estimated useful lives which range from 3 to 40 years. Expenditures for repairs and maintenance are expensed as incurred. Costs directly related to software development and acquisition, are capitalized until the asset is placed in service.

L. Retirement Plan

The Foundation sponsors The University of Connecticut Foundation, Inc. Retirement Annuity Plan (the “Plan”), which is a fully funded, qualified plan under Section 403(b) of the Internal Revenue Code. The Plan covers all full time and certain part time employees, excluding students. Participants are required to contribute 3% of regular salary, with the Foundation contributing 8% of each participant’s salary. Participants are subject to three-year cliff vesting for Foundation contributions to the plan. The unvested amount as of June 30, 2019 is $576,980. Included in Foundation support expenses are Plan contributions of $869,128 and $900,644 for the year ended June 30, 2019 and 2018, respectively.
M. Income Taxes

The Foundation has a letter of exemption from federal income tax from the Internal Revenue Service under Section 501(c) (3) of the Internal Revenue Code. Due to certain investments, the Foundation does have unrelated business income, however the federal tax liability has been immaterial. The Foundation has appropriate support for any tax position taken and believes it does not have any uncertain tax positions that are material to the financial statements.

N. Recently Adopted Accounting Standards

On July 1, 2018, the Foundation adopted ASU No. 2014-09, Revenue from Contracts with Customers, a principles based standard to recognize revenue from customer contracts. The guidance applies to all exchange transactions, but specifically excludes contribution income. Since contributions make up the majority of the Foundation’s revenues, the adoption of the standard had no material impact to the Foundation.

On July 1, 2018, the Foundation adopted ASU 2016-14, Presentation of Financial Statements of Not-for-Profit Entities (ASU 2016-14), which revises the not-for-profit financial reporting model. ASU 2016-14 provides for additional disclosure requirements and modifies net asset reporting. The standard requires the Foundation to reclassify its net assets (i.e., unrestricted, temporarily restricted, and permanently restricted) into two categories; net assets without donor imposed restrictions, and net assets with donor imposed restrictions, among other requirements.

On July 1, 2018, the Foundation implemented ASU 2018-08 Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made. The guidance clarifies the definition of an exchange transaction used to evaluate whether contributions are unconditional or conditional. Due to the nature of the types of contributions received by the Foundation, the impact on the financial statements will be immaterial.

Recent Accounting Pronouncements, Not Yet Effective

In February 2016, the Financial Accounting Standards Board issued ASU No. 2016-02, Leases. The guidance sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract. The guidance will be effective for the fiscal year 2020 statements and supersedes the existing guidance on accounting for leases. The Foundation is in the process of evaluating the impact of adoption on its financial statements.

In November 2017, the Financial Accounting Standards Board issued ASU 2016-18 Statement of Cash Flows: Restricted Cash. The new standard requires that the statement of cash flows explain the change during the period in the total of cash, cash equivalents, and restricted cash. The guidance is effective for fiscal year 2020 statements. The Foundation has reviewed the guidance and has determined the impact to the financial statement will be immaterial.
In January 2017, the FASB issued ASU 2017-02, *Clarifying When a Not-for-Profit Entity that is a General Partner or a Limited Partner Should Consolidate a For Profit Limited Partnership or Similar Entity*, which amends the consolidation guidance for Not-for-Profit entities in ASC 958-810. The final guidance clarifies the model used by Not-for-Profit entities to evaluate the consolidation of investments in limited partnerships. The new standard also affirms the FASB’s intent to retain that Not-for-Profit “portfolio-wide” fair value option under its new investment recognition and measurement rules that will take effect in fiscal years beginning after December 15, 2018. The Foundation is in the process of evaluating the impact of the adoption on its financial statements and related disclosures.

The Tax Cuts and Jobs Act (the “Act”) was enacted on December 22, 2017. The Act impacts the Foundation in the computation of unrelated business taxable income separately for each unrelated trade or business. The Act also reduces the federal corporate tax rate from 35% to 21%. The overall impact of the Act will not be known until regulatory guidance is issued.

### O. Reclassifications and Restatements

It is the Foundation’s policy to reclassify, where appropriate, prior year financial statements to conform to the current year presentation. With the implementation of ASU 2016-14 in fiscal year 2019, the following reclassifications were made.

The interest rates used in the computation of the discount ranged from 1.0% to 3.6% for June 2019 and 1.0% to 2.8% for June 2018.

Conditional pledges of $10,716,309 at June 30, 2019 are unreported. Bequest expectancies totaling $147,819,362 have also been excluded from these amounts and are not recorded in the financial statements.

3. Investments

In accordance with the accounting pronouncement on fair value measurements, fair value is defined as the price that the Foundation or its investment manager would receive upon selling an investment in an orderly transaction between market participants in the principal or most advantageous market at the measurement date. A three-tier hierarchy is established, based on inputs to valuation techniques, to maximize the use of observable market data and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the investment, including assumptions about risk. Input may be observable or unobservable. Observable inputs are inputs that reflect the assumptions that market participants would use in pricing the investment based on market data obtained from sources independent of the investment manager or Foundation. Unobservable inputs are inputs that reflect the Fund’s own assumptions about the assumptions market participants would use in pricing the investment based on the best information available in the circumstances.
The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- **Level 1** – Quoted prices (unadjusted) in active markets for identical investments that the Foundation has the ability to access at the measurement date. This level of the fair value hierarchy provides the most reliable evidence of fair value and is used to measure fair value whenever available.

- **Level 2** – Inputs other than quoted prices included within Level 1 that are observable for an investment. These inputs include quoted prices for similar investments in active markets, quoted prices for identical or similar investments in markets that are not active, and inputs other than quoted prices that are observable for the investment, for example interest rate and yield curves, volatilities, prepayment rates and credit risk among others. These are inputs that are derived principally from or corroborated by observable market data by correlation or other means. Certain investments defined as Level 2 are in the form of commingled funds, the shares of which are not publicly traded, where the valuation of the underlying securities held in the fund is taken from quoted prices in active markets.

- **Level 3** – Inputs that are unobservable inputs for the investment that are used to measure fair value when observable inputs are not available. Unobservable inputs reflect the Foundation’s or its investment manager’s own assumptions about the assumptions that market participants would use in pricing the investment. These inputs are developed based on the best information available in the circumstances, which might include the Foundation’s or its investment manager’s own data. The investment portfolio is shown below at fair value by investment asset class and hierarchy.
Certain investments are measured at fair value using net asset value (or its equivalent). The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of financial position, because NAV is a practical expedient.

Net asset values provided by third parties have been utilized in determining fair value where there are significant unobservable inputs. Investment managers utilize outside pricing services and administrators as well as their own internal valuation models in determining and verifying fair values. The Foundation performs ongoing due diligence with the investment managers that include evaluation of manager operations and valuation procedures, site visits, investor calls, review of manager filings, and audited financial statements among other items. The Foundation’s Investment Committee of the Board of Directors monitors performance of investment managers and meets formally with the managers on a periodic basis in addition to the ongoing due diligence performed by Foundation investment staff.
Operating investments are invested in level 1 assets; a short duration bond portfolio which is diversified across investment grade corporate bonds, high yield short duration corporate bonds, and asset backed securities. The portfolio maintains an average credit quality above BBB.

4. **Cash Surrender Value of Life Insurance**

Life insurance policies donated to the Foundation have been recorded as contributions and assets at their respective cash surrender values in the year of donation. Any changes in the cash surrender values after donation are offset against life insurance premiums expense in the year of the change. The Foundation will receive the face value of these policies upon their maturation. The face value of these policies as of June 30, 2019 and 2018 was $4,346,984 and $4,090,294, respectively, while their aggregate cash surrender value was $585,876 and $600,796 respectively.
5. **Property and Equipment**

Depreciation expense was $669,696 and $924,358 for property and equipment used for Foundation operations for the year ended June 30, 2019 and 2018, respectively.

8. Bond and Note Payable

In April 2013, the Foundation entered into a loan agreement with Connecticut Health and Education Facilities Authority to issue Series C revenue bonds, the proceeds of which were used to fund the construction of the Werth Family UConn Basketball Champions Center on the University of Connecticut campus in Storrs. The Foundation committed that it would provide financial support up to $33 million inclusive of the $20 million bond financing.

In August 1999, the Foundation entered into a loan agreement with Connecticut Health and Education Facilities Authority (the “Authority”), which issued Series A revenue bonds primarily for the construction of an office building on the University campus at Storrs to house all the administrative functions and operations of the Foundation, and to finance a portion of a Visitor’s Center. In January 2007, the Foundation completed a plan with the Authority that provided for the advance refunding of this debt and the issuance of new debt resulting in the defeasance of the Series A bonds and establishment of Series B bonds. On October 27, 2017, the Foundation was issued a taxable term loan note from Wells Fargo Bank for the purpose of refunding the Series B Bonds, which resulted in the release of restricted cash, full amortization of the balance of the Bond’s deferred issuance costs, and the defeasance of the Series B Bonds.

Costs related to acquiring the note payable and the portion of bond proceeds which funded costs of the bond issuance, together with costs funded by Foundation operations relating to issuance costs, have been recognized as deferred costs on the accompanying statement of financial position and are amortized over the life of the bonds and note payable, respectively. The deferred costs are presented as a direct deduction of bonds and note payable. The balance of the costs of issuance of the Series B bonds, which were defeased in October 2017, were fully amortized during fiscal year 2018. Amortization expense for the year ended June 30, 2019 and 2018 was $35,051 and $280,429, respectively, and is included in Foundation support expenses.

The Foundation’s endowment net assets consist of approximately 1,805 individual funds established for a variety of purposes plus the following where the assets have been designated for endowment: pledges receivable, split interest agreements, and other net assets. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments.

The Board of Directors of the Foundation has interpreted Connecticut UPMIFA as requiring prudent management of the fair value of the original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with donor restrictions a) the original value of gifts donated to the permanent endowment, b) the original value of subsequent gifts to the permanent endowment, and c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. In accordance with Connecticut UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1) The duration and preservation of the fund
2) The purposes of the Foundation and the donor-restricted endowment fund
3) General economic conditions
4) The possible effect of inflation and deflation

Endowment assets are long-term in nature and managed as such on a total return basis. There are certain short-term considerations in constructing the endowment investment portfolio, such as spending allocations and annual operating support. However, the assets can tolerate a reasonable level of short-term volatility in the interest of maximizing long-term performance. In order to attain the varied investment objectives, a proper balance must be struck between return and risk. With a proper risk/return profile, the Foundation believes maintaining real purchasing power of the spending allocation and meeting annual funding needs can be achieved over time through the asset allocation and spending policies adopted by its Board of Directors.

The Foundation utilizes a diversified asset allocation consisting of: growth strategies (primarily equity-based investments); inflation hedging strategies to protect against inflation and provide purchasing power (strategies with significant correlations to inflation); and risk minimizing strategies to reduce volatility and preserve capital (fixed income and other
strategies with low correlations to equities). Investment returns are achieved through capital appreciation (realized and unrealized) and current yield (interest and dividends).

10. Liquidity and Availability

Financial assets available for general expenditure, that is, without donor restrictions or other restrictions limiting their use, within one year of the statement of financial position date are comprised of the following:

<table>
<thead>
<tr>

</thead>
<tbody>

<tr>

</tr>
</tbody>
</table>

The Foundation’s unrestricted investments represent non-endowed assets that are not designated to a specific unit or purpose and can be used by the Foundation at any time. The assets are invested in short term investments determined by the Foundation investment policy.

Many of the Foundation liabilities may be funded by financial assets with donor restrictions, which are not included in the liquidity table above.

11. Expenses by Nature and Function

Expenses are presented by functional classification in accordance with the overall service mission of the Foundation. Each functional classification displays all expenses related to the underlying operations by natural classification.

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include depreciation and interest (included in facilities and equipment expense), which are allocated on a headcount basis.
12. University Support

The Foundation, at the direction of its donors, makes payments on behalf of or directly to the University in support of the University’s mission. Such amounts are classified as University Program Support in the statement of activities and in Note 11. There are two primary sources of Foundation funds available to the University: charitable gifts and philanthropic grants contributed to the Foundation that are immediately available for expenditure, and spending allocation from the accumulated investment earnings of individual endowment funds (Note 1G). Total funds disbursed by the Foundation in support of the University in accordance with the donated purpose were $35,344,100 and $28,396,400 for the year ended June 30, 2019 and 2018, respectively. Fluctuations in spending are driven by the current needs of the University, and availability of support from the Foundation.

13. Related Party Transactions

In December 1994, the Foundation assumed primary responsibility for the fundraising program conducted for the benefit of the University and, in June 1995, the Foundation assumed responsibility for related advancement services. The relationship, roles and arrangements between the Foundation and the University are documented in an Agreement dated July 1, 2015 (the "Agreement"), and in a Memorandum of Understanding (the "MOU"), which is updated on a one or two year basis. In payment for fundraising and other services outlined in the MOU, the Foundation recorded revenue from the University of $8,815,000 and $8,565,000 for the year ended June 30, 2019 and 2018, respectively.
The University of Connecticut Foundation, Incorporated
Notes to the Financial Statements
June 30, 2019 and 2018

The University of Connecticut Foundation has a contractual arrangement with the University of Connecticut to act as the University’s agent in managing their endowed assets. The endowments are invested in a manner consistent with the Foundation’s endowments. The Foundation has elected to disclose the fair value of the endowed assets on the balance sheet with an offsetting liability. The University’s endowment had a fair value of $15,059,023 and $15,098,682 as of June 30, 2019 and 2018 respectively.

In April 2015, the Foundation assumed primary responsibility for alumni engagement activities for the University. The Foundation will focus on strengthening lifelong bonds between all members of University alumni. The University has granted the Foundation rights to use the Alumni Center at the cost of $1.00 rent per year. In payment for alumni engagement outlined in the MOU, the Foundation recorded revenue from the University of $2,352,166 and $1,915,000 for year ended June 30, 2019 and 2018, respectively.

The Foundation has recorded a liability due to the University of $13,472,690 and $4,630,216 and to the University Health Center of $967,572 and $3,430, for disbursement requests as of June 30, 2019 and 2018 respectively, which is included in accounts payable and accrued expenses in the accompanying statement of financial position. In addition, at the request of the University of Connecticut’s Board of Trustees, the Foundation's Board of Directors agreed in 1996 to help fund a deferred compensation package for the former University's President which is included in the Foundation’s liabilities.

The Foundation has recorded no amount due from the University at June 30, 2019 and 2018.

The Foundation office building is owned by the Foundation and was constructed on approximately 1.58 acres of land owned by the University, which the University has leased to the Foundation pursuant to the terms of a ground lease (the “Lease”) at an annual rental of $1.00. The initial term of the Lease is ninety-nine years and the Foundation has the right to extend the term of the Lease for ninety-nine additional years. The Lease provides that at its expiration or earlier termination, unless it is extended, the Foundation shall surrender the premises, and title to the building will then vest in the University. The Lease may be terminated by the University upon a breach by the Foundation of any of the terms and conditions of the Lease. The University must notify the Foundation of any such breach and allow 30 days for the Foundation to cure the breach.

Internal Control Observations
for the year ended
June 30, 2019
October 3, 2019

Audit Committee
University of Connecticut Foundation, Inc.
Storrs, Connecticut 06269

Dear Members of the Audit Committee:

In planning performing our audit of the financial statements of The University of Connecticut Foundation, Inc. (the “Foundation”) as of and for the year ended June 30, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered its internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the Foundation's internal control over financial reporting. Accordingly, we do not express an opinion on the Foundation’s internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified.

AU 325, Communicating Internal Control Related Matters Identified in an Audit, of the AICPA Professional Standards includes the following definitions of a deficiency, a significant deficiency and a material weakness:

- **Deficiency** - a deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

- **Significant deficiency** - a control deficiency, or combination of control deficiencies, that adversely affects the entity’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity’s financial statements that is more than inconsequential will not be prevented or detected.

- **Material weakness** - a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected.

This letter is intended solely for the information and use of the Audit Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

PricewaterhouseCoopers LLP, 185 Asylum Street, Suite 2400, Hartford, CT 06103

1. Investment Disclosures

Observation / Impact
As a result of our review of investments related disclosures, we identified areas of recommended enhancements to the Foundation’s investment disclosure and review processes. They are:

a.) Review of cash flow (specifically investments) – In testing the cash flow statement, we noted that the Foundation was incorrectly calculating cash flows relating to purchases and sales of investments. For level 1 investments, the Foundation was inappropriately disclosing in the cash flow statement overnight sweep activity within the purchases and sales of investments line.

b.) Review of unfunded commitments disclosure – Upon review of the investments footnote disclosures, we noted that the unfunded commitments balance was not updated for June 30, 2019 amounts. An adjustment to decrease the unfunded commitment balance disclosure by $5.0M was recorded by the Foundation as a result of PwC’s review.

Recommendation
We recommend that the Foundation ensure that all disclosures are reviewed in detail to ensure financial statements are in compliance with US GAAP. A critical self review along with a secondary review performed by someone other than the preparer of the initial disclosure is recommended. Further, management should ensure that they are using the most up to date financial information and consider when investments report final June 30 balances when creating financial statement disclosures.

Management’s Response
Management agrees with the recommendations on the review of the cash flow statement and the investment footnote disclosures and will implement the processes as recommended.

2. Funds Held in Trust Held by Others

Observation / Impact
As a result of our testing of the funds held in trust by others asset, it was identified that the asset balance was overstated by $900K. Upon further investigation, we noted there was incorrect bookkeeping for one of the Foundation’s most significant trusts.

Recommendation
We recommend that the management implement a detailed review process over the area of funds held in trust by others. A secondary review performed by someone other than the preparer of the initial entries would help identify any errors timely.

Management’s Response
Management agrees with the recommendations made and will implement the additional review processes recommended.

3. Investments Processes

Observation / Impact
As a result of our testing over investments, we identified areas of recommended enhancements to the Foundation’s investment accounting and review processes. They are:

a) Financial statement reviews - The Foundation obtains financial reports as part of their controls over investment funds held. However, they do not review the financial statements to determine the type of opinion (unqualified versus qualified), basis of accounting (US GAAP, IFRS), competency of accounting firm, and whether any material adjustments were made to the statements in the current or prior year. Performing a review of the audited financial statements provides insights to the organization on their ability to rely on the valuations performed and the NAV provided by the investment fund.

b) Lookback analysis - Similar to a financial statement review, the lookback analysis assists organizations in determining whether the fair value reported to an organization in its capital statements, approximates the final amounts reported in the audited financial statements. Since the Foundation's financial statements are audited as of June 30th and the funds are typically audited as of December 31st, performing a lookback analysis as of December 31st allows the organization to determine if the early amounts reported through the closing process are consistent and not materially different to the fair values as of the audited financials statements. This control allows the organization to determine if they can rely on the fund’s NAV reported as of an unaudited date.

Prior Year Recommendation
The Foundation continues to outsource its investment function. To the extent that the investment accounting is outsourced to others, management should ensure that these control functions are being performed by the outsourced organization. There continue to be investments that are monitored and accounted for by the Foundation Management. For those internally controlled investments, the Foundation should ensure accounting resources are in place to perform the controls identified above.

Prior Year Management’s Response
Management agrees with the recommendations and will review the current procedures to ensure the above recommendations are included.

Current Year Update
As a result of our audit procedures performed, we believe management has implemented financial statement reviews as recommended above. As such, we have closed the financial statement review comments. Management has not yet implemented lookback analysis procedures. As such, this comment remains open and has continued applicability.

Management’s Response
Management did take steps to address this comment during the fiscal year however this did not include documenting the lookback analysis. In the future the Foundation will document the look back analysis that is performed to support this important control.
Update on Prior Year Comments, closed

4. Statement of Cash Flow Classification

Observation / Impact
As a result of our testing over the statement of cash flows, we identified areas of recommended enhancements to the Foundation’s accounting and review processes. As part of our tie out of the statement of cash flows, we identified certain transactions were inappropriately classified in accordance with GAAP. Further, we identified certain formulaic errors within the calculation of certain lines on the statement of cash flows.

Prior Year Recommendation
We recommend that the Foundation ensure that the statement of cash flows is reviewed to ensure all lines are reported in line with US GAAP. When preparing the statement of cash flows, management should perform a detailed review to ensure transactions are appropriately classified in accordance with GAAP. Further, management should performed a detailed review of the calculation for mathematical accuracy.

Prior Year Management’s Response
Management agrees with the recommendations and will review the current review process.

Current Year Update
As a result of our audit procedures performed, we believe management has addressed this comment, please refer to comment #1 for additional cash flow recommendations. We have closed this comment.

5. Investment Levelling

Observation / Impact
As a result of our review of the disclosure of investments, PwC identified multiple investments that were improperly classified as Level I investments in the levelling table for $2.6M. These investments are held by various custodians but the fair value is not readily determinable as they are Level II investments. Management has updated the disclosure appropriately.

Prior Year (2017) Recommendation
We recommend that management re-assess its levelling review process which includes appropriate review of all investments included in custodian accounts to ensure they are appropriately levelled.

Prior Year (2017) Management’s Response
Management agrees with the recommendation and will update current procedures to include all custodian accounts.

Prior Year (2018) Update
As a result of our review of the disclosure of investments, PwC identified cash and cash equivalents that were included within global fixed income investments in the levelling table for $3.1M. These amounts should be appropriately included within the cash and cash equivalents asset group within the levelling table disclosure. Management has updated the disclosure appropriately.

Prior Year (2018) Management's Response
Management will continue to work on procedures to ensure investments are classified correctly.

Current Year Update
As a result of our audit procedures performed, we believe management has substantially addressed this comment. We did identify certain immaterial variances in our levelling testing but waive on proposing any adjustments. We have closed this comment.
Agreement Between UConn and the UConn Foundation

EXECUTION VERSION

Statement of Work FY19

This Statement of Work FY19 (this “SOW”), effective the 1st day of July, 2018, is made between UNIVERSITY OF CONNECTICUT (“University”), Connecticut’s land grant university, whose statutory authority is set forth in Chapter 185b of the Connecticut General Statutes, and THE UNIVERSITY OF CONNECTICUT FOUNDATION, INCORPORATED (“Foundation”), a Connecticut nonstock corporation that is exempt from taxation under 501(c)(3) of the Internal Revenue Code of 1986, as amended.

The University and the Foundation have entered into an Amended and Restated Master Agreement dated July 1, 2015 (the “Agreement”) under which the Foundation has responsibility for fundraising efforts for the benefit of the University, management of endowment funds designated to benefit the University and for performing alumni relations activities in support of the University.

The Agreement stipulates that the University and Foundation will from time to time, but in no event less frequently than once every five (5) years, enter into statements of work which outline the specific fundraising, investment management and alumni relations activities goals and objectives that the University and Foundation have agreed upon and the consideration to be provided to the Foundation each fiscal year. This SOW covers the period July 1, 2018 through June 30, 2019 (“Period”).

1. Payments

The University agreed to provide certain in-kind consideration to the Foundation for its services under the terms of the Agreement. In addition to agreeing to provide such in-kind consideration, the University further agrees to provide the following consideration to the Foundation for each year of the Period:

a) Service Fee: The University will pay a guaranteed amount to the Foundation of $8,065,000 during the Period for development activities and related services, which payments will be made quarterly in advance in equal installments during the Period. In addition, the University will pay to the Foundation an amount not to exceed $2,352,166 for alumni relations activities and services.

b) Other Fees: The University agrees that Foundation operations will also be funded by an advancement fee (formerly referred to as an “endowment administrative fee”), and a gift fee on contributions and earnings on non-endowed Foundation assets.

1) The Foundation will assess and retain an advancement fee, as reasonably determined by the Foundation, on all endowment assets (University and Foundation assets) invested by the Foundation. The Foundation’s advancement fee is calculated annually on quarterly (“Calculation Date”) and presently equals two percent (2.0%) of the rolling prior twelve (12) quarter average unitized market value of the long-term pooled investment portfolio multiplied by the number of units held by each endowed fund. The Foundation, from time to time, may change the advancement fee and will notify the University, in writing, of any changes to the administrative fee made during the Period. The advancement fee owing to the Foundation will be transferred to Foundation operating funds in four equal installments as of the first day of each quarter following the Calculation Date (April 1st, July 1st, October 1st, and January 1st).

2) The Foundation will assess and retain gift fees on all non-endowed gifts deposited in the Foundation, as reasonably determined by the Foundation. The Foundation’s gift fee for non-endowed gifts is presently five percent (5%) of the value of the gift as of the date of receipt. Twenty-five percent (25%)
of any non-endowed gift fee (or 1.25%) may be transferred to Foundation operating accounts supporting the school, college or unit supported by the fund to which the original gift was designated. The remaining seventy-five percent (75%) of any non-endowed gift fees (3.75%) is retained by the Foundation to support its operations. The Foundation, from time to time, may change the gift fees and will notify the University, in writing, of any changes to the gift fees made during the Period.

3) The Foundation will retain all investment earnings on non-endowed Foundation assets.

c) **Use of Facilities**: The University and the Foundation have entered into a separate Lease agreement dated effective October 22, 2015, which documents the terms and conditions for the Foundation’s use of the Alumni Center, located at 2384 Alumni Drive.

2. **Foundation Mission**

The Foundation’s mission statement is: Strengthening UConn One Relationship at a Time. The independent, not-for-profit, tax-exempt organization does this by operating exclusively to promote the educational, scientific, cultural, research and recreational objectives of the University of Connecticut. This is accomplished by providing quality programs and services for its alumni and supporters, and by serving as the primary fundraising vehicle for the University. The Foundation solicits, administers, and invests private funds for the sole benefit of the University and its mission of pursuing excellence in teaching, research, and public service.

3. **Fundraising and Alumni Engagement Goals and Benchmarks**

In consideration of the compensation provided to Foundation by the University under the terms of the Agreement and this SOW, the Foundation, consistent with its mission, agrees as follows:

The Foundation will continue its efforts to increase total private gift revenue toward an annual target of ninety million dollars ($90M) in new gifts and commitments for the University (inclusive of support for the UConn Health Center), in the Period, such amount to be calculated in accordance with the Foundation’s reasonably established gift counting policy, as amended from time to time. The annual strategies will include:

a) **Increase donor engagement**

1) Utilize the University President, Provost, Deans and Program Directors in strategic donor outreach at the six-figure level and above.
2) Utilize the UConn Foundation Board Work Groups to support increased cultivation, solicitation, and stewardship of major and principal gift prospects.
3) Increase commitments from the various boards’ members - the UConn Board of Trustees, UConn Foundation Board of Directors, and the UConn Health Center Board of Directors
4) Continue to focus on building customized engagement strategies for principal gift donors and prospects, understanding this group will have a disproportionate impact on the ability to reach and exceed goals.
5) Increase contact and deepen engagement of donors and prospects at the $50K+ rated level through more efficient deployment of appropriate numbers of full time frontline fundraisers, effectively utilizing prospect research and screening data to drive activity.
6) Facilitate stronger collaboration in donor strategy working across the Foundation and the University, using prospect management meetings to review and discuss the status of top donor strategies and package comprehensive proposals. Engage deans and directors in strategy discussions and direct implementation of fundraising. Increase engagement of University President and Provost with key University stakeholders.
7) Continue to focus on increasing overall donor count by transforming what was the traditional annual-giving program into a diverse model, influenced by business intelligence, which includes a customized digital strategy.

b) Increase alumni engagement

1) Strengthen lifelong bonds between all members of the UConn family by inspiring pride and providing quality programs and services which enhance the engagement of the diverse university community.
2) Create a means by which to measure alumni engagement and use the data that is generated to better define and focus outreach efforts.
3) Increase alumni gifts of time, talent, and treasure by creating meaningful opportunities for alumni to be engaged and involved on behalf of the University through, for example, local and regional networks, reunion programming and opportunities with new constituencies.
4) Develop an exemplary Alumni organization respected for its energy, expertise, effectiveness, and innovation.

c) Align fundraising with University priorities

1) Continue enrollment management scholarship fundraising with increased focus on the $150 million goal aimed at increasing scholarship support for the University by June 30, 2021. Use reasonable efforts to raise gifts and commitments for student support, including, but not limited to, scholarships, assistantships, fellowships, awards, and prizes, that equal not less than fifteen percent of the total amount of all gifts and commitments raised during the Period.
2) Expand comprehensive grateful patient program through work with identified physician champions and patient rounding with nurse managers.
3) Raise approximately an additional $8 million in commitments in the Period in order to complete fundraising required to initiate construction for soccer, softball, and baseball projects.
4) Maintain an emphasis on endowment fundraising to provide sustaining support of the University.
5) Support University, as well as School and College, fundraising priorities.
6) Begin a formal process to develop transformational priorities within Schools and Colleges that align with University priorities and the University’s strategic plan.

d) Enhance external and internal communications

1) Help educate faculty and staff across the University community about the important role of cultivating and stewarding private support.
2) Continue to develop fundraising focused material related to strategic priorities of the University.
3) Coordinate communications to alumni and donors with the University.
4) Continue efforts to educate the general-public, including lawmakers and community leaders, regarding the important role the Foundation plays in providing support to the University.

e) Increase operational efficiencies

1) Strengthen stewardship for donors at various levels, including $1K or more annual donors, as well as lifetime donors of $100K or more.
2) Increase Regional Development program outreach to strengthen engagement and support from alumni and other constituents nationally.
3) Retain staff and increase investment in staff training.
4. Investment Benchmarks

The Foundation in its discretion will establish appropriate investment benchmarks for assets invested for the benefit of the University, both those owned by the Foundation and those owned by the University. The Foundation will provide to the University’s President and Executive Vice President for Administration and Chief Financial Officer a summary report of its investment risk and return benchmarks during the Period. The Foundation will use reasonable efforts to maintain the following benchmarks during the Period:

a) The target return on Foundation investments will be 6.25% plus inflation.
b) The Foundation will limit to 12% the level of volatility on an annualized basis based on the Foundation’s Board of Director’s policy.
c) The Foundation’s target risk adjusted return measured by Sharpe ratio will be 1.0 or greater measured over rolling periods.

5. Campaign Support

In FY19 the Foundation intends to build on FY18 planning activities for a significant and concerted fundraising effort for the benefit of the University (“Campaign”), which included, without limitation, constituent data analysis, staffing and technology enhancements. Additional planning and preparation for the Campaign in FY19 is expected to include, without limitation, the following activities:

a) Determining a Campaign model (e.g., initiative-based campaigns, singular campaign, other).
b) Creating a Campaign statement and identifying priorities to be funded.
c) Creating a campaign timeline that identifies all areas of preparedness for a campaign: initial campaign planning, prospect identification and rating, gift solicitation, stewardship, volunteer engagement, campaign communications, and launches and events.
d) Implementing a comprehensive enterprise content management system to support Foundation Campaign operations.
e) Placing even more intentional focus on engaging and soliciting donors at the principal gift level.

It is understood and agreed by the parties that the amount of funds to be raised, the priorities to be funded, and the timing of such Campaign, is to be mutually agreed upon by the parties. The University agrees a comprehensive fundraising campaign is appropriate and in its best interests. Therefore, in consideration of the foregoing, the University agrees to provide additional consideration to the Foundation upon execution of this SOW to support such Campaign planning and preparation. During the Period, such support will total $750,000 and will be provided to the Foundation in the first quarterly installment payment.

6. State Contract Requirements

The state contracting requirements set forth in Section 10 of the Agreement are incorporated herein by reference, to the extent necessary.

7. Amendment

This SOW may be modified or amended in whole or in part by mutual written agreement signed by duly authorized representatives of each of the parties.
8. Governing Law

This SOW is governed by the laws of the State of Connecticut. If there shall be any inconsistency between the provisions of this SOW and the Agreement, the provisions of the Agreement shall control.

General Statement
The University of Connecticut Foundation, Inc. is a non-stock, private corporation organized under Connecticut State law and exempt from federal income tax under Section 501(c)(3) of the federal tax code. The mission of the Foundation is to solicit, secure and manage contributions from the private sector (primarily individuals, corporations and philanthropic foundations) for the benefit of the University of Connecticut, including without limitation the University of Connecticut Health Center, the State’s public, land-grant institution of higher education. The Foundation has committed itself to administering its programs and operations in a manner that merits a high level of trust and confidence.

Foundation directors are expected to conduct themselves honestly, ethically, and fairly. They are further expected to fulfill their responsibilities and carry out their duties in such a manner as to inspire and assure the confidence of fellow directors, officers, employees, donors, alumni, University faculty and administrators, friends of the University and all others with whom the Foundation transacts business.

The Foundation acknowledges that there are many ambiguous situations that may arise due to the size and complexity of the organization, the diverse nature of the operations of the Foundation, and the variety of organizations doing business with the Foundation. Situations may arise in which a director may find that his or her interests are in conflict with those of the Foundation and/or that making the proper decision about a particular situation is difficult. On such occasions, the director should seek appropriate guidance from the Chair of the Nominating and Board Governance Committee (“NBG Committee”) to assess whether the situation is one that could appear to compromise a director’s independence and should not rely solely on the director’s own judgment. It is important to the work of the Foundation that its directors avoid even the appearance of impropriety, as well as actual impropriety. This document sets forth the policy, guidelines, and procedure for addressing such conflicts and situations.

Applicable Laws
As a not-for-profit corporation, the Foundation must operate within the laws and regulations of both federal and state government. It is the responsibility of the Foundation’s General Counsel, in consultation with outside counsel, to inform the Foundation of these laws and regulations and of any changes. Directors are expected to fulfill their responsibilities and conduct their activities on behalf of the Foundation within the letter, spirit, and intent of applicable laws and regulations.
Conflicts of Interest Policy of UConn Foundation cont.

Foundation Ethics
The Foundation endorses and subscribes to the CASE Statement of Ethics for institutional advancement professionals as developed under the leadership of the Council for Advancement and Support of Education, a copy of which is attached.

Duty of Care
Foundation directors owe a duty of care to the Foundation and shall discharge their duties as directors, including as members of a committee: (1) in good faith; (2) with the care an ordinarily prudent person in a like position would exercise under similar circumstances; and (3) in a manner they reasonably believe to be in the best interests of the corporation. Directors shall conduct the affairs of the Foundation acting honestly and lawfully. This duty of care extends to the University as beneficiary of the Foundation. Directors shall be diligent in their duties to the Foundation and shall act reasonably, remain informed, and exercise independent judgment.

In discharging their duties directors are entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, if prepared or presented by: (1) one or more officers or employees of the corporation whom the directors reasonably believe to be reliable and competent in the matters presented; (2) legal counsel, public accountants or other persons as to matters the directors reasonably believe are within the person’s professional or expert competence; or (3) a committee of the board of directors of which a director is not a member if the director reasonably believes the committee merits confidence.

Duty of Loyalty
Foundation directors owe a duty of loyalty to the Foundation and the University, and shall not use their Foundation position for personal gain. To that end, a director should give undivided allegiance when making decisions affecting the Foundation. The director’s duty of loyalty applies equally whether the director is engaged in Foundation activities or outside activities. The director’s duty of loyalty includes, but is not limited to, the director’s obligation to protect the confidences of the Foundation and to refrain from engaging in transactions that would create a conflict of interest or the appearance of a conflict of interest.

• Confidentiality. In the course of carrying out their duties and responsibilities, directors will be privy to information that was created, discovered, acquired or developed by or disclosed to the Foundation and, as such, is considered to be confidential and proprietary in nature. This information includes, but is not limited to, research and development data, business plans, expansion plans or proposals, strategic plans, personnel data, financial statements, lists and information about gifts, donors and accounts. Directors shall recognize that they have a legal and ethical duty not to disclose this information, shall hold all such information in strictest confidence and shall agree not to release confidential and proprietary information to anyone outside the Foundation except for authorized purposes or unless required by law.

• Conflict of Interest. A conflict of interest arises in any situation in which a director or a related person is involved in an activity that could adversely affect such director’s judgment with respect to the business of the Foundation or otherwise diminish the interest of the Foundation. Generally, a related person includes one’s own immediate family members and those of his or her spouse; a person with whom one is living; or a business entity, trust or estate in which one has an interest. Certain conflicts of
interest may be approved by the NBG Committee, Executive Committee, or full Board as being in the best interests of the Foundation. Other conflicts, however, may preclude (i) the Foundation or a director from engaging in an activity, or (ii) an individuals from serving as a member of the Foundation Board. Some examples of situations in which a conflict of interest may be present are described in Attachment B to provide guidance. The examples are not intended to identify all potential or actual conflicts of interest.

**Continuous Duty to Disclose Actual or Potential Conflicts of Interest**

All Foundation directors will be asked to complete and sign a disclosure statement annually. Candidates for director positions shall complete and sign the disclosure statement before their terms begin. The statement will include a description of all material facts relating to any substantive actual or potential conflict of interest for such director by virtue of his or her own activities or that of related persons. Of particular concern are situations in which a director or related person possesses a financial interest not entirely consistent with that of the Foundation, or confidential information which if disclosed could adversely affect the Foundation. Disclosure statements will be provided by and must be returned to the Foundation’s President. If, after completing and signing the annual disclosure statement, an apparent, potential or actual conflict arises, the director with the conflict shall notify the Foundation’s President in writing. The Foundation President’s disclosure statement and any on-going disclosure by the Foundation President shall be made to the Chair of the NBG Committee. All disclosures pursuant to this policy will be treated confidentially.

**Addressing Actual and Potential Conflicts of Interest**

The following process will be followed in addressing actual and potential conflicts of interest:

- All disclosures made to the Foundation President pursuant to this policy shall be reviewed by the Chair of the NBG Committee.
- If a potential conflict of interest situation involves a pending transaction or action on the part of the Foundation, such potential conflict shall be brought to the attention of the Chair of the NBG Committee prior to any action on the part of the Foundation. The Chair of the NBG Committee shall consult with the director regarding the potential conflict and obtain information necessary for an ordinarily prudent person to make a judgment as to whether a conflict exists.
- The Chair of the NBG Committee shall exercise good faith in determining whether an actual conflict exists and shall provide guidance as to the appropriate course of action if a conflict exists.
- If the Chair of the NBG Committee determines that further review would be prudent, he or she will seek the advice and approval of the full NBG Committee in determining whether such situation or transaction is fair and serves the Foundation’s best interests.
- If the NBG Committee determines that further review would be prudent, it shall seek the advice and approval of the full Board or Executive Committee in determining whether such situation or transaction is fair and serves the Foundation’s best interests.
- The NBG Committee or the Executive Committee shall refer any such matter to the full Board if either such committee has not under the circumstances been appointed by a majority of disinterested directors.
- The Chair of the NBG Committee, the full NBG Committee, the Executive Committee, or the full Board may consult with the Foundation’s General Counsel as appropriate.
Restraint on Participation
Directors have special fiduciary responsibilities that require them to discuss and make decisions concerning transactions undertaken by the Foundation. Directors who have declared or have been deemed to have a conflict of interest must refrain from consideration of proposed transactions, unless for special reason the NBG Committee, Executive Committee, or Board requests information or interpretations or agrees to waive the conflict. Any director with a conflict may not vote, participate in discussion, nor be present at the time of any vote on the proposed action or transaction. The proposed action or transaction in which a conflict of interest has been declared or found to exist must be approved by a majority of the disinterested directors of the NBG Committee, the Executive Committee or, the Board, as appropriate, and the Committee or the Board conducting the vote shall retain detailed minutes of any proceedings involving a potential conflict of interest action or transaction.

Political Activities
Foundation directors should exercise extreme caution whenever it may appear that they are engaging in certain political activities or lobbying on behalf of the Foundation and should consult with the Chair of the NBG Committee or the President prior to any such activity. Directors should be aware that engaging in such activities could threaten the tax-exempt status of the Foundation. Among these activities are the following:

a) engaging in lobbying on behalf of the Foundation; and
b) engaging in any political campaign activity on behalf of the Foundation.

Violations of this Policy
If the Board has reasonable cause to believe a director has failed to disclose actual or possible conflicts of interest, it shall inform the director of the basis for such belief and afford the director an opportunity to explain the alleged failure to disclose. If, after hearing the director’s response and after making further investigation as warranted by the circumstances, the Board determines the director has failed to disclose an actual or possible conflict of interest, it will take appropriate corrective action.

Administration
The Board has the responsibility for and determines changes to this policy. The NBG Committee has oversight responsibility. The Foundation President is responsible for the implementation and adherence to the policy. The Foundation’s Counsel, in consultation with outside counsel, is available for consultation with the President, the NBG Committee, the Executive Committee and the Board, is responsible for matters of interpretation and shall be asked to review the policy periodically for appropriate modifications.
CASE Statement of Ethics

Institutional advancement professionals, by virtue of their responsibilities within the academic community, represent their colleges, universities, and schools to the larger society. They have, therefore, a special duty to exemplify the best qualities of their institutions and to observe the highest standards of personal and professional conduct.

In so doing, they promote the merits of their institutions, and of education generally, without disparaging other colleges and schools.

Their words and actions embody respect for truth, fairness, free inquiry, and the opinions of others.

They respect all individuals without regard to race, color, sex, sexual orientation, marital status, creed, ethnic or national identity, handicap, or age.

They uphold the professional reputation of other advancement officers and give credit for ideas, words, or images originated by others.

They safeguard privacy rights and confidential information.

They do not grant or accept favors for personal gain, nor do they solicit or accept favors for their institutions where a higher public interest would be violated.

They avoid actual or apparent conflicts of interest and, if in doubt, seek guidance from appropriate authorities.

They follow the letter and spirit of laws and regulations affecting institutional advancement.

They observe these standards and others that apply to their professions and actively encourage colleagues to join them in supporting the highest standards of conduct.

The CASE Board of Trustees adopted this Statement of Ethics to guide and reinforce our professional conduct in all areas of institutional advancement. The statement is also intended to stimulate awareness and discussion of ethical issues that may arise in our professional activities. The Board adopted the final text in Toronto on July 11, 1982, after a year of deliberation by national and district leaders and by countless volunteers throughout the membership.
Examples of situations presenting potential conflicts of interest

The following are examples of situations in which a conflict may be present. These examples do not represent all potential situations that might give rise to a conflict.

- Purchasing supplies, equipment, or services from a vendor in which a director has an ownership interest or with which a related person might benefit from the transaction.

- A directorship or active participation in an organization that transacts business with the Foundation or whose interests compete with those of the Foundation (such as serving as a member of the governing board, being employed by, or working as a consultant to any other higher educational institution or affiliate, any other hospital or affiliate, or any other nonprofit or for-profit organization located in Connecticut or elsewhere, public or private, which may be in competition with the Foundation and/or the University for state appropriations or other funding, faculty, students, patients, or donors).

- Investment by the Foundation with a firm in which a director or a related person is an owner, officer, board member, partner, employee, or has some other significant beneficial interest.

- Investment by the Foundation with a firm in which another organization has a controlling or significant beneficial interest (other than side by side investor situations) and a director or related person is an owner, officer, board member, partner, employee or has some other significant beneficial interest with the other organization.

- Investment by the Foundation in any investment opportunity of which the Foundation is reasonably aware that a director or a related person already has a personal investment which is material to him or her, or which is material to the size of the overall investment fund. For purposes of materiality a 5% guideline may be considered, however, each situation should be assessed on its own merits.

- Use of information obtained from the Foundation for personal gain or benefit.

- Acceptance by a director or a related person of any personal benefit that results from the execution of the director’s duties as a Foundation director and is not otherwise available to the general public. For example, if a director makes an investment in common with the Foundation where:
  - The director became eligible to make the investment solely because of his or her membership on the Board;
  - The director’s minimum investment requirement in a particular investment fund was waived because such individual is a member of the Board and the Foundation was also an investor in the fund; or
  - The director first acquired information concerning the investment from the Board and the investment was not widely available to the public, even if the opportunity was one for which the director might subsequently have been an eligible investor.

- Investment by a director or a related person in any investment opportunity of which the director is reasonably aware that the Foundation already has an investment in under circumstances in which:
- the investment of a director or a related person is material to him or her, or
- the investment by either the Foundation or director (or a related person) is material in relation to the size of the overall fund.

The name of the Corporation is THE UNIVERSITY OF CONNECTICUT FOUNDATION, INCORPORATED (the "Corporation").

Section 1.2 – Principal Office

The principal office of this Corporation shall be at such place in the Town of Mansfield, State of Connecticut as the directors shall from time to time designate. The Corporation may have other offices at such other places as the directors may from time to time determine.

Such individuals serving as *ex-officio* committee members, however, shall not be entitled to vote and shall not be counted for quorum purposes on any committee except the Executive Committee or a committee on which the Board has appointed such individual as Chair or as a voting member. Such *ex-officio* committee members, moreover, shall not be counted toward satisfaction of the numerical membership requirements of the standing committees provided above.

Section 6.11 – Non-Board Committee and Subcommittee Members

The Board of Directors may appoint non-Board members as consultants or advisory members with non-voting status to any of the standing committees or subcommittees, not including the Executive Committee, when the Board believes their expertise to be helpful to the respective committee, but in no event shall the number of non-Board members exceed the number of Board members on any committee or subcommittee. The designation and appointment of any such committee or subcommittee and delegation thereto of authority shall not operate to relieve the Board of Directors or any individual director of any responsibility imposed upon him or her as a director.
Article VII – Miscellaneous

Section 7.1 – Minutes

The Board of Directors, the Executive Committee, all standing committees and all subcommittees shall keep a record of proceedings and shall report these proceedings to the Board of Directors at or before the regular meeting thereof held next after they have been taken.

Section 7.2 – Fiscal Year

The fiscal year of this corporation shall begin on the 1st day of July.

Section 7.3 – Corporate Seal

The seal of this corporation shall have inscribed thereon the name of the corporation and the word “Seal”. The use of the seal shall be symbolic only and shall not be required to bind the corporation or to evidence any official act, document or instrument.

Section 7.4 – Annual Audit

At least once during each fiscal year of the Corporation, the directors shall cause to be made an independent audit of the corporate fiscal records, including records of assets, liabilities, gains, losses, receipts, disbursements, investments and other transactions.

Section 7.5 – Rules of Order

The rules contained in Robert's Rules of Order, latest edition, shall govern any meeting of the Board of Directors or any committee or subcommittee thereof, unless otherwise provided under these bylaws or the certificate of incorporation.

Section 7.6 - Executive Sessions

During any regularly called meeting, the Chair of the Board of Directors may call an Executive Session of the Board, and the Chair of any committee may call an Executive Session of such committee, if deemed necessary by such Chair and if the members of the Board or committee concur, for the purpose of discussing any matters of business which the Board or committee may
consider confidential or sensitive. Only voting members of the Board of Directors and individuals invited by such Board members may be present during Executive Session. Any action with respect to matters discussed in Executive Session shall be conducted before the full Board or committee, as the case may be.

Section 7.7 – Amendments

Any of these bylaws may be altered, amended or repealed and additional bylaws may be adopted by the Board of Directors at any annual meeting or at any regular or special meeting called for the purpose, provided that written notice of such proposed action shall have been given in the notice of any such meetings, whether annual, regular or special. For purposes of this Section, the act of two-thirds of the directors present at a meeting at which a quorum is present at the time of the act shall be the act of the Board of Directors provided no alteration, amendments or repeal of any provision herein which is substantially similar to any provision contained in the certificate of incorporation shall be effective unless the certificate of incorporation be amended to reflect such alteration, amendment or repeal.
